MEMORANDUM FOR THE RECORD

SUBJECT: Coordination of Regulatory Issuances

X1 1. On 27 February 1970, [] and I met with []
[] on the subject of long delays in coordination of regulatory issuances. 25X
We reviewed with him the time period since we last discussed the subject
with Chief, OPSER (then [] newly on-board 25X
present). We indicated, using the authentication and coordination status
reports dated 26 February 1970, that there had in fact been no real improve-
ment or change in the situation. We also cited a recent experience of the
Travel Policy Committee in finding its agreed papers subsequently bogged
down in [] office as being particularly distressing. We again
pointed out that [] contribution, when received, was useful but
suggested that the Agency over-all could not afford to have a single
individual determine its priorities. Further, we pointed out that we
intended to now initiate a revision in our practice of not printing Head-
quarters regulations until [] are authenticated. 25X
We noted that we had adopted this practice of holding action since it
avoided the confusion which resulted when previously CS-coordinated
[] came back with recommended substantive changes.

X1 2. [] expressed surprise at the extent of the problem
and undertook to look into it and attempt to effect a change. He took
copies of the 26 February status reports. He asked that we send to him
copies of future periodic status reports prepared by Regulations Control
Branch.
